

2. The sun forms in the middle of the **CLOUD** which is now shaped like a pancake or **DISK**

3. **PLANETS** form like snowballs as they move around the **DISK**

1. 5 Billion years ago a giant gas **CLOUD** has too much gravity and collapses!

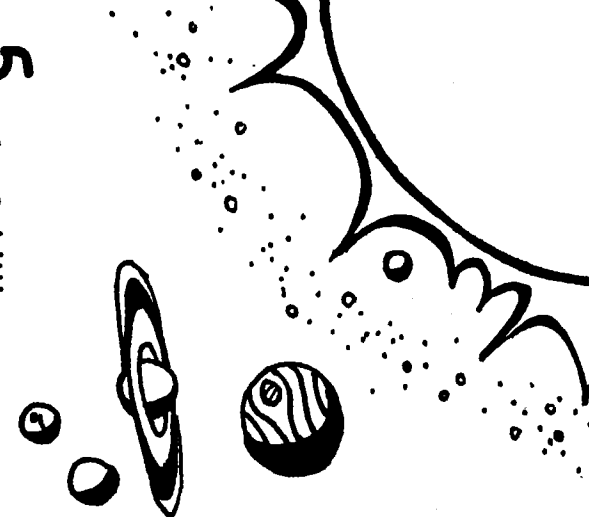

4. Soon the **DISK** is all gone and only the **SOLAR SYSTEM** is left!

# THE BIRTH OF THE SUN

7. All that is left is a tiny **WHITE DWARF STAR** as big as the Earth!

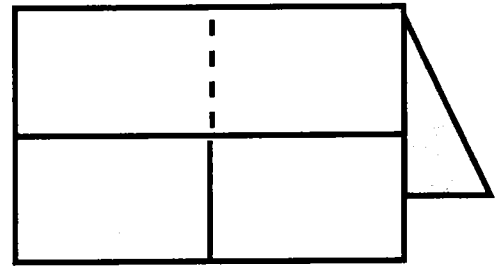

5. In 5 billion years, the sun will become a **RED GIANT STAR**. Look out, Earth!

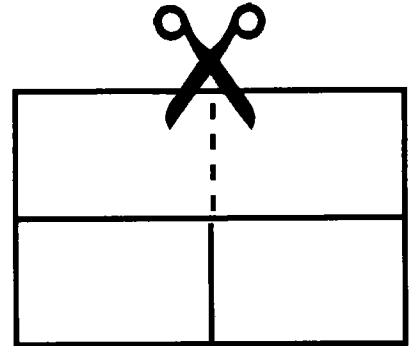

6. The outside of the **RED GIANT STAR** will make a beautiful **PLANETARY NEBULA**

# How to fold a mini comic book!

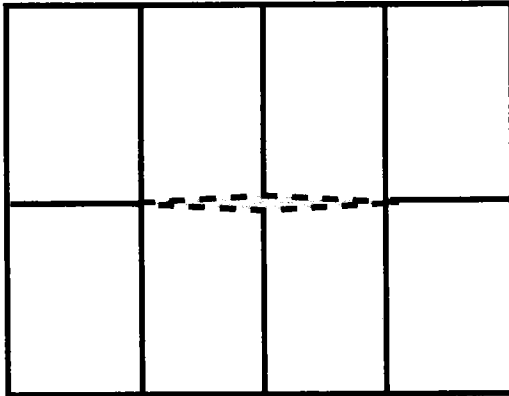

**1.** Fold in half, Hamburger-style

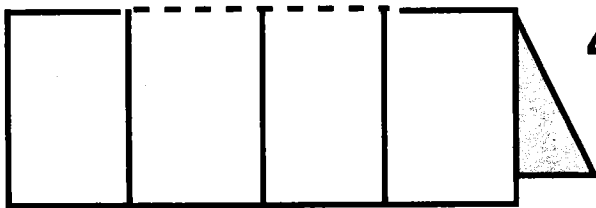

**2.** Cut along the dotted line

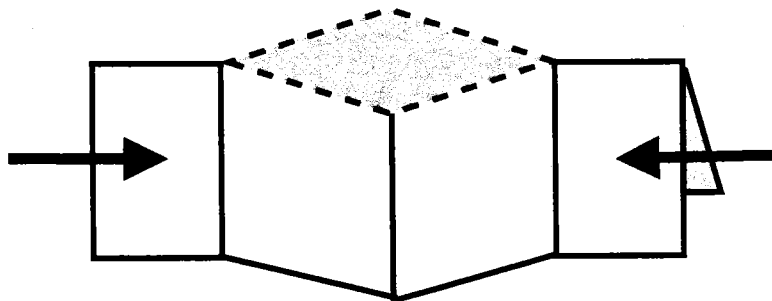

**3.** Unfold

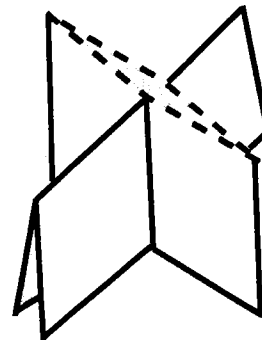

**4.** Fold in half, Hotdog-style

**6.** The top of the paper should make a cross shape

**5.** Pinch the two ends and push them together

**7.** Crease the pages flat, and fold them so that your cover is at the front. Hooray! You are done!
